Contents

Volume 31, Number 1, February 1994

i Editorial

1 *Christine M. Happey-Wood and Anders H. Lund:* Production of new organic carbon and its distribution between autotrophic picoplankton, bacteria, extracellular organic carbon and phytoplankton in an upland lake

19 *S. C. Maberly, M. A. Hurley, C. Butterwick, J. E. Corry, S. I. Heaney, A. E. Irish, G. H. M. Jaworski, J. W. G. Lund, C. S. Reynolds and J. V. Roscoe:* The rise and fall of *Asterionella formosa* in the South Basin of Lake Windermere: analysis of a 45-year series of data

35 *Kevin Collier:* Influence of nymphal size, sex and morphotype on microdistribution of *Deleatidium* (Ephemeroptera: Leptophlebiidae) in a New Zealand river

43 *Dean Jacobsen and Kaj Sand-Jensen:* Invertebrate herbivory on the submerged macrophyte *Potamogeton perfoliatus* in a Danish stream

53 *Alan D. Steinman:* The influence of phosphorus enrichment on lotic bryophytes

65 *C. J. Kok and G. van der Velde:* Decomposition and macroinvertebrate colonization of aquatic and terrestrial leaf material in alkaline and acid still water

77 *Gerhard Maier:* Patterns of life history among cyclopoid copepods of central Europe

87 *Edward Thier:* Allozyme variation among natural populations of *Holopedium gibberum* (Crustacea; Cladocera)

97 *Steffen Burkhardt:* Seasonal size variation in the predatory cladoceran *Bythotrephes cederstroemii* in Lake Michigan

109 *Rob C. Hart and Barbara Santer:* Nutritional suitability of some uni-algal diets for freshwater calanoids: unexpected inadequacies of commonly used edible greens and others

117 **Book Reviews**

120 **Short Notices**

Volume 31, Number 2, April 1994

121 *Kaj Sand-Jensen, Ole Geertz-Hansen, Ole Pedersen and Helle Skovgaard:* Size dependence of composition, photosynthesis and growth in the colony-forming freshwater ciliate, *Ophrydium versatile*

131 *Alexander S. Flecker and Brian Feifarek:* Disturbance and the temporal variability of invertebrate assemblages in two Andean streams

143 *R. Schabetsberger:* Gastric evacuation rates of adult and larval alpine newts (*Triturus alpestris*) under laboratory and field conditions

153 *Elizabeth A. Bergey and Vincent H. Resh:* Interactions between a stream caddisfly and the algae on its case: factors affecting algal quantity

165 *Joseph M. Culp, Garry J. Scrimgeour and Chris E. Beers:* The effect of sample duration on the quantification of stream drift

175 *Katarzyna B. Watala and Cezary Watala:* A photometric technique for the measurement of plant surface area: the adsorption of Brilliant Blue dye on to plant surfaces

183 *Lizhu Wang and John C. Priscu:* Influence of phytoplankton on the response of bacterioplankton growth to nutrient enrichment

191 *David F. Spencer, Gregory G. Ksander and Linda C. Whitehand:* Estimating the abundance of subterranean propagules of submersed aquatic plants

201 *Paul V. McCormick, Denise Louie and John Cairns Jr:* Longitudinal effects of herbivory on lotic periphyton assemblages

213 *Joseph P. Shannon, Dean W. Blinn and Lawrence E. Stevens:* Trophic interactions and benthic animal community structure in the Colorado River, Arizona, U.S.A.

221 *Peter F. M. Coesel and Klaasjan Wardenaar:* Light-limited growth and photosynthetic characteristics of two planktonic desmid species

227 *Leslie A. Carlough:* Origins, structure and trophic significance of amorphous seston in a blackwater river
239 *David L. Strayer, Dean C. Hunter, Lane C. Smith and Christopher K. Borg:* Distribution, abundance and roles of freshwater clams (Bivalvia, Unionidae) in the freshwater tidal Hudson River
249 **Book Reviews**

Volume 31, Number 3, June 1994

253 *Bernhard Statzner, Vincent H. Resh and Louis Roux:* The synthesis of long-term ecological research in the context of concurrently developed ecological theory: design of a research strategy for the Upper Rhône River and its floodplain
265 *Colin R. Townsend and Alan G. Hildrew:* Species traits in relation to a habitat templet for river systems
277 *Sylvain Dolédec and Daniel Chessel:* Co-inertia analysis: an alternative method for studying species–environment relationships
295 *François Chevenet, Sylvain Dolédec and Daniel Chessel:* A fuzzy coding approach for the analysis of long-term ecological data
311 *Bernard Cellot, Marie José Dole-Oliver, Gudrun Bornette and Guy Pautou:* Temporal and spatial environmental variability in the Upper Rhône River and its floodplain
327 *Jacques Juget and Michel Lafont:* Theoretical habitat templets, species traits, and species richness: aquatic oligochaetes in the Upper Rhône River and its floodplain
341 *Pierre Marmonier, Anne-Marie Bodergat and Sylvain Dolédec:* Theoretical habitat templets, species traits, and species richness: ostracods (Crustacea) in the Upper Rhône River and its floodplain
357 *Philippe Usseglio-Polatera and Henri Tachet:* Theoretical habitat templets, species traits, and species richness: Plecoptera and Ephemeroptera in the Upper Rhône River and its floodplain
377 *Philippe Richoux:* Theoretical habitat templets, species traits, and species richness: aquatic Coleoptera in the Upper Rhône River and its floodplain
397 *Henri Tachet, Philippe Usseglio-Polatera and Chantel Roux:* Theoretical habitat templets, species traits, and species richness: Trichoptera in the Upper Rhône River and its floodplain
417 *Philippe Usseglio-Polatera:* Theoretical habitat templets, species traits, and species richness: aquatic insects in the Upper Rhône River and its floodplain
439 *Henri Persat, Jean-Michel Olivier and Didier Pont:* Theoretical habitat templets, species traits, and species richness: fish in the Upper Rhône River and its floodplain
455 *Pierre Joly and Alain Morand:* Theoretical habitat templets, species traits, and species richness: amphibians in the Upper Rhône River and its floodplain
469 *Michel Bournaud:* Theoretical habitat templets, species traits, and species richness: birds in the Upper Rhône River and its floodplain
487 *Gudrun Bornette, Christophe Henry, Marie-Hélène Barrat and Claude Amoros:* Theoretical habitat templets, species traits, and species richness: aquatic macrophytes in the Upper Rhône River and its floodplain
507 *Guy Pautou and Marie-Francoise Arens:* Theoretical habitat templets, species traits, and species richness: floodplain vegetation in the Upper Rhône River
523 *Sylvain Dolédec and Bernhard Statzner:* Theoretical habitat templets, species traits, and species richness: 548 plant and animal species in the Upper Rhône River and its floodplain
539 *Vincent H. Resh, Alan G. Hildrew, Bernhard Statzner and Colin R. Townsend:* Theoretical habitat templets, species traits, and species richness: a synthesis of long-term research on the Upper Rhône River in the context of concurrently developed ecological theory
